Malden, MA 02148 | (857) 233-3620 | thanghpham1506@gmail.com | LinkedIn | GitHub | Portfolio

Computer Science Sophomore | Software Engineering & Web Development
Java, TypeScript, Svelte | Seeking Summer 2027 Internship or Co-op

EDUCATION

Wentworth Institute of Technology Expected Graduation: May 2029
Bachelor of Science in Computer Science (GPA 3.95/4.0) Boston, MA
Honors: Dean's List (Fall 2025, Spring 2026)
Relevant Coursework: Data Structure, Network Programming, Discrete Math, Linear Algebra & Matrix Theory, OOP

TECHNICAL SKILLS

Languages: Java, TypeScript, JavaScript, Python
Web Developments: HTML, CSS, Tailwind CSS, Svelte, Vite, Responsive Design
Tools: Git, GitHub, GitHub Pages, EmailJS
Concepts: Data Structures, Object-Oriented Programming, File I/O, Exception Handling

PROJECTS

Portfolio Website April 2026 - Present
HTML, CSS, JS Boston, MA

- Built and deployed a responsive portfolio from scratch with modular CSS and custom breakpoints for mobile, tablet, and desktop
- Integrated an EmailJS contact form with client-side validation, enabling direct messages without a backend server
- Rebuilt the site with Claude Code, replacing a 783-line breakpoint stylesheet with a mobile-first layout and running headless Chrome checks at seven screen widths from 360px to 1920px.

Tic Tac Toe Nov – Dec 2025
Java Boston, MA

- Developed a console-based game with a randomized computer opponent, win/tie detection across rows, columns, and diagonals, and input validation using exception handling
- Persisted win/loss/tie statistics across rounds using file I/O

EXPERIENCES

HackBoston Team Nov 2025 – Present
Web Developer Boston, MA

- Design and build the HackBoston team page using Svelte, TypeScript, and Tailwind CSS, with a responsive layout for 7 member profiles (names and roles) across mobile and desktop.
- Iterate on color scheme and typography based on team feedback to align the page with the site's visual identity.

CodeWIT Jan 2026
Code-A-Thon Competitor Boston, MA

- Solved 22 of 50 mixed-difficulty Java problems in a full-day, self-paced HackerRank challenge open to Wentworth students of all class years
- Applied arrays, ArrayLists, and exception handling to design, test, and debug solutions under time constraints

CERTIFICATIONS

- **FreeCodeCamp -** Responsive Web Design June 2026
- **Anthropic -** Certificate of Completion: AI Fluency Framework & Foundations June 2026
