EDUCATION

Wentworth Institute of Technology Expected Graduation: May 2029
Bachelor of Science in Computer Science (GPA 3.95/4.0) Boston, MA
Honors: Dean's List (Fall 2025, Spring 2026)
Relevant Coursework: Data Structure, Networking Programming, Discrete Math, Linear Algebra & Matrix Theory, OOP.

CERTIFICATIONS

- **FreeCodeCamp -** Python Sep 2026
- **FreeCodeCamp -** Responsive Web Design June 2026
- **Anthropic -** Certificate of Completion: AI Fluency Framework & Foundations June 2026

EXPERIENCES

HackBoston Team Nov 2025 – Present
Web Developer Boston, MA

- Design the layout for the HackBoston team page using Svelte and Tailwind CSS, structuring team member profiles (names and roles) for clear presentation.
- Iterated on color scheme and typography based on team feedback to align the team page with the site's broader visual identity.

CodeWIT Jan 2026
Code-A-Thon Competitior Boston, MA

- Solved 22 of 50 mixed-difficulty problems in a full-day, self-paced HackerRank challenge limited to registered students from all years class
- Designed, validated, and debugged Java solutions using arrays, ArrayLists, and exception handling across a full-day HackerRank challenge.

PROJECTS

Portfolio Website April 2026 - Present
HTML, CSS, JS Boston, MA

- Built a fully responsive personal portfolio website from scratch using HTML, CSS, and JavaScript, featuring a modular CSS architecture and custom breakpoints across devices.
- Implemented an IntersectionObserver-based scrollspy navigation bar that dynamically highlights the active section as the user scrolls.
- Integrated an EmailJS-powered contact form with client-side validation for direct messaging without a backend server.

Tic Tac Toe Nov – Dec 2025
Java Boston, MA

- Built a console-based Tic-Tac-Toe game in Java for a human player versus a randomized computer opponent, using a dual-array design to separate game state from the on-screen position reference grid.
- Implemented win/tie detection across rows, columns, and diagonals, input validation with exception handling for invalid or duplicate moves, and file I/O to persist and display win/loss/tie statistics across rounds.

SKILLS & INTERESTS

Programming Languages: Java, TypeScript, JavaScript, Python
Web & Frameworks: HTML, CSS, Tailwind CSS, Svelte, Vite
Core Skills & Tools: Data Structures, Git, GitHub, Responsive UI
